# Pocket Toner® NX1

## Test voice, data, video cables for continuity, open and short circuits

Quickly and easily identify and test live coax cables for continuity, opens and shorts.

- Primary testing device for COAX cable
- Detachable toner unit plus audible tone on the main body
- Bi-gender toner unit allows a female connector to be tested by simply removing the Speed 81™ coupler

**Cable Professional**

**2 buzzers indicate continuity with loud tones**
(one buzzer in the main unit and one in the toner unit)

**Nickel-plated brass connection fittings**
(replaceable)

**Extra bright bi-colored LED**
(red=short, green=continuity)

**Low-voltage circuit protection inside** (6v-52v)

**Bi-gender toner unit with *Speed 81*™ coupler**

**Lightweight aluminum construction**

**Auto shutoff feature extends battery life**

**AAA battery**

**PN# PTNX1**

**Removable toner unit**
